

European Logistics Platform

Our Goals

- ✓ To bring together policy makers and industry stakeholders and promote a better understanding of logistics: the backbone of our economy

Our Goals

- ✓ To discuss the full range of policy areas impacting logistics and supply chains including transport, innovation, industry, environment, sustainability, trade, energy, intermodality, internal market and employment; with the overall aim of forging **a more integrated policy approach** to tackle current and future challenges while improving EU competitiveness

Our Goals

- ✓ To call for the establishment of a European Parliament inter-parliamentary group on logistics/supply chains for the next parliamentary term starting in 2014

Who we are

* Membership is pending legal approval
