

## MORE THAN TRANSPORT

The European Logistics Platform (ELP), a unique platform which brings together **decision-makers** and **industry representatives**,

**calls for establishment of an**

### **INTERPARLIAMENTARY GROUP ON LOGISTICS**

#### **Why logistics matters**

- The logistics industry represents one of the most dynamic and important sectors of the European economy
- The value added of the logistics sector to the EU economy is 300 billion euro annually; approx. 13.8 % of the total EU GDP
- Logistics generates €1 trillion of revenue and provides employment to over 7 million Europeans.
- Logistics costs amount to 10% to 15% of the total cost of finished product
